DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-20 and 44, drawn to a method for purifying RNA from biological material with an RNA Binding Solution, classified in class 536, subclasses 22.1-28.9.
 - II. Claims 21-43 and 45, drawn to a method for purifying RNA from biological material with an RNA Lysing Solution, classified in class 435 and 536, subclass various.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are unrelated to one another. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different method for purifying RNA from biological material, while using the same biological material have different modes of purifications.

Group I is drawn to a method for purifying RNA from biological material with an RNA Binding Solution, which is unrelated to the method of Group II.

Group II is drawn to a method for purifying RNA from biological material with an RNA Lysing Solution by forming a lysate, which is unrelated to the method of Group I.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and /or divergent

subject material, restriction for examination purposes as indicated is proper.

Furthermore, searches for the two groups would not be coextensive, would therefore place an undue burden on the Examiner.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Devesh Khare whose telephone number is (703)605-
